

Alexandria Capital Bikeshare Expansion

Expansion Outreach - Summer 2017

Growing from eighth stations in 2012 to 31 in 2016, the Capital Bikeshare system is growing in Alexandria! With grant funding to add an additional 10 bikeshare stations in FY 2018, City staff conducted outreach on 16 possible bikeshare station locations. An online survey allowed Alexandria residents to rate each proposed station location based on suitability. These results directly informed the top 10 prioritized stations that City staff have put forward for the next round of expansion.

Eight of the 10 stations were approved by the Traffic & Parking Board on July 24, 2017. Additional outreach is being conducted on the two stations that did not receive approval. Please see the next page for more details on how to provide feedback.

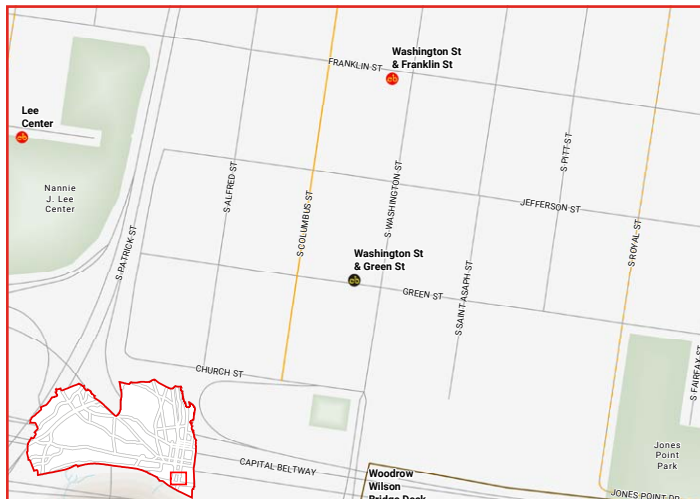

Alexandria Capital Bikeshare Expansion
